

Facilitating Open Account – Receivables Finance

Blockchain Technology in Receivables Finance

**When: Tuesday 5 May,
14:00 CET - 20:00 CST - 08:00 EST**

As part of the FCI webinar series, we are happy to announce the new free webinar on Blockchain Technology in Receivables Finance.

This 75 minutes webinar is comprised of three fascinating parts:

- ✓ FCI Secretary General, Mr. Peter Mulroy, is presenting his views on the current situations and some general remarks, while our industry experts present on their expertise in the field.
- ✓ A panel discussion, moderated by Peter Mulroy, whereby our industry experts share their opinions on blockchain including adoption, change with the COVID-19, preferences in receivables finance...
- ✓ A Q&A session, where all panelists reply to participants' questions.

THE PANELISTS

Mr. Enrico Camerinelli
Senior Market Research
Analyst
Aite Group

Focusing on the areas of Supply Chain Finance, Blockchain, and Supply Chain Management, Enrico has been for a long time an independent analyst and advisor of organizations.

Mr. Daniel Huszar
Head of Sales
Efcorn

Daniel is responsible for client communication and advises on product development. He is fascinated about new technologies and blockchain and is a recognised speaker on the subject.

Mr. Deepesh Patel
Director of Partnerships &
Marketing
Trade Finance Global (TFG)

Deepesh leads efforts in developing TFG's brand, relationships and strategic direction in key markets, including the UK, US, Singapore, Dubai and Hong Kong. This includes TFG's fintech platform and blockchain projects.

MODERATOR

Mr. Peter Mulroy
Secretary General
FCI

Peter is generally regarded as an "ambassador for the receivables finance and factoring industry". He addresses and educates audiences from around the world on the subject of factoring and international trade.
