Impact of COVID-19 outbreak on Supply Chains

FREEWEBINAR

FREE WEBINAR

When: Thursday 23 April 2020, 17:00 CST - 18:00 JST - 11:00 CET

COVID-19 COVID-19 COVID-19

Following the enormous success of our first webinars on the topic (500 registered participants) as well as the requests received from our industry, especially from those who could not attend, we decided to repeat it.

The 90 minutes webinar is comprised of three highly interesting parts:

- ✓ FCI Secretary General, Mr. Peter Mulroy, is presenting his views on the current situations and shares with the audience the FCI Contingency plan, while our industry experts present on the measures taken to tackle all the business risks in their daily operations as well as the policies implemented to ensure business continuity.
- ✓ A panel discussion, moderated by Peter Mulroy, whereby our industry experts and FCI executives share their opinions on the current pandemic status, its impact on trade flows and supply chains.
- ✓ A Q&A session, where all panelists reply to participants' questions.

This webinar is meant for Asia and Pacific Region, other regions are also welcomed. Note that this is the third webinar of this series after the ones organised on 2 and 9 April for other regions.
